

THE UPS PRAYER

Lord,

Bless this UPS Center with Peace and Prosperity.

Keep the Drivers safe at all times and use them as extensions of You on all their routes.

Press the Supervisors daily to better serve the Driver's, Loaders, Mechanics, and all other personnel who work here with kindness as if they were in the same position.

Help all of us create an atmosphere of safety and family who help each other and lift one another's spirits even when we're not having a good day.

Remind us that every package is sent with love and urgency, and needs special care as do all the givers and receivers of our packages.

For some customers we may be the only smile or "How are you doing?" that they get all day long. Help us to always ask and respond with care and thank them whenever we can.

We know that wearing the Brown Uniform is a privilege and a part of a long history of service and helping others. It's about more than the package - it's about the daily relationships we meet and all the first names we can remember. Remind us to check the package if we forget!

Watch over all the kids of our employees. They are the reason most of them are here putting in the long hours and doing the hard work. Instill in them the knowledge and recognition of how their parents have sacrificed to provide for them a better life in the midst of tape and cardboard.

Please help all our employees be great fathers and mothers for the sake of our community. After work, let them never forget that kids spell love T-I-M-E and bless their moments over meals and talking about their day together. Each night give them ample rest and recovery.

As our employees receive their paychecks, reward them with the gift of saving some of their earnings for the future needs they will have in life and at home.

Lord, this is not the place to take it easy and we thank you for placing us here to make a difference. Give us strength, flexibility and love that we might encourage everyone we come into contact with.

Let this UPS Center be the very best Center, and allow us to do our greatest work today with a sincere and grateful heart.

Amen.

-Written in honor of my "dad", Jerry Derepentigny, a 30 year UPS Driver who always had a smile to give and owned every brown UPS garment imaginable.
